The ERT unit was sent back. I have 10 samples left to run on the HPGE.

Hi. Did we send the ERT unit back? Unfortunately, our other unit was just received by Ludlum today. They didn't send out when I gave to them. So we will have to deal with the one unit.

What's the status of the HPGe analysis? Do we have samples left to run from the NFB sample bags?

Thanks.

Hi Eric –

Hope you are doing well. I was wondering if that Ludlum 3030 you took back with you to get calibrated was complete and back at the Region 2 warehouse. Right now we have one 3030 (SN-210752) here at the site. I know that during the demobilization we will be running a lot of swipes, and it would be good to have two units onsite. Also, if the 3030 that is onsite now was to go down, we would have a backup to keep running swipe samples. When you have the opportunity, can you please let me know if the other 3030 (I believe it is SN-210750) is ready. If it is ready, it would be

ED_001490B_00009719-00001

good if I could get it onsite before the demobilization so I could have the time to do a Control Chart for it. Feel free to call me anytime with any questions or concerns you might have.

Thank You

Chad
